Maria Georgiadou

Web, Graphic & Video Designer

Designer who can take a project from first meeting to delivery: branding, websites, print, illustration and video. I can work independently or with guidance, and in a team. I adapt files to any size or format, and use AI to speed things up while I check every result myself.

EXPERIENCE

Web Designer & Project Lead
2 months · ongoing

Mojo de Cana · Gran Canaria, Spain

Building the organisation's WordPress site, which solves how they publish volunteer offers and micro-projects, with stay guides for each volunteer. I lead the project, coordinate with staff and work with a colleague who interviews volunteers.

- WordPress, plugins, responsive on phone and all devices, 2 languages

Content, Video & Design Support
10 months

Mojo de Cana · Gran Canaria, Spain

- Created templates and presentations on varied themes; event cards in Figma, Canva and Photoshop
- Edited reels and a 10-minute final video from 5 days of events, for work with large partners
- Filmed with a professional camera; transcribed interviews; made subtitles in several languages
- Worked with many different managers; coordinated schedules, emotions and opinions across people and projects so the team kept moving toward a productive goal
- Wrote professional emails; built Excel files, PDFs and social media files; helped run 2 events

Workshop Creator & Presenter
3 days

Mojo de Cana · Gran Canaria, Spain

Designed and presented my own workshop to 20 people on creating an Instagram poster to promote an event. Delivered the full PowerPoint and helped build the event.

Brand & Web Designer (freelance)
20 days · 2025

Om Eressos · Lesvos, Greece

EXPERIENCE (CONTINUED)

Web & Graphic Design Intern

6 months · 2025

Site Project · Lesvos, Greece

- Designed a full 8-page website in Figma, with research on competitor sites and custom designs, plus a logo design for a client proposal
- Made a brochure that ended up in a contemporary art museum, a brochure for a photographer, and flyers
- Edited photos and logos; delivered small logos, photos and presentations, and a logo in 4 colours (vector and SVG)
- Learned to build files at exact sizes for print, edit in Photoshop, and research trends

Graphic Designer – menu design (freelance)

10 days · 2024

Hara Beach bar · Lesvos, Greece

- Met the bartenders and the kitchen separately, wrote the whole menu and designed it in the owners' colours
- Delivered 5 pages in 2 languages as PNG, PDF and print-ready PDF
- Learned print basics: how prints are cut, RGB vs print colour

Logo Identity – H.Design

Own accounts

Making my own videos, presentations and AI-assisted projects for Behance and personal projects, and managing my LinkedIn.

WHY ME

I have worked on every part of a project: branding, web, print and video. So if a project needs something extra, for example a website that also needs a video, I know how to do it myself. I can take on a project and create the materials with guidance, or independently when no one is guiding. I work well in a team: at Om Eressos with a 3-person team, and at Mojo de Cana with many different managers and the staff. I handle different opinions, time and priorities, switch between projects, and stay focused on a productive goal. I adapt logos, photos and designs to new sizes and formats quickly (vector, SVG, PNG, print PDF, favicons, social media).
